CSI AVIATION

Aviation Transport

Mission Specific, Mission Success.

An Experienced Prime Contractor for Government Programs

CSI CURRENTLY HOLDS 23 GOVERNMENT CONTRACTS AND COMPLETES MORE THAN 9,000 MISSIONS EVERY YEAR

- BPA/IDIQ Emergency Response for surge operations
- Nearly unlimited access to Part 121 aircraft, matching the "machine to the mission"
- Approved air carrier for the U.S. Departments of Energy, Labor, Homeland Security, and Defense
- Registered vendor with the UN Secretariat

A Closer Look

DOD / AFRICA

Pax movement, hazmat cargo, crew transport, medical flights, and CASEVAC across West Africa with the Beechcraft 1900. Program maintains a 100% operational rating which demonstrates reliability, flexibility, and consistent readiness in a high tempo setting.

USTRANSCOM AND US NAVY / THE CARIBBEAN

Air transport throughout the Caribbean including regular flights between Florida, Cuba, and the Bahamas. We also perform ad hoc OCONUS and CONUS missions and hurricane evacuation and recovery efforts. These missions maintain a 100% mission success rate despite maintenance challenges from salt corrosion and other environmental conditions in the area.

Meet the Beechcraft 1900

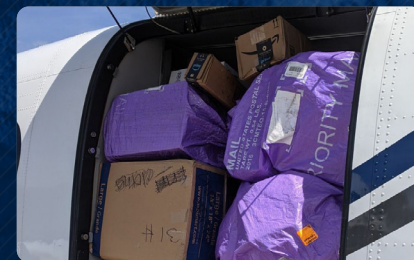

An Exceptional Aircraft for African Transport Missions

OUR AFRICA-BASED BEECHCRAFT 1900s OFFER THE VERSATILITY AND RELIABILITY NEEDED FOR MOST GOVERNMENT MISSIONS ON THE CONTINENT.

- Capable of landing on small, tricky runways in rugged terrain
- Standard 19-seat passenger configuration
- Large cargo door and baggage area
- Can load 2000+ lbs. of palletized or loose cargo by forklift

- Moveable bulkhead increases cargo space to fit up to 3 commercial pallets (300 sq. ft.) plus 8-10 passengers w/ baggage
- Equipped with "Whisper Propellers" for noise reduction and cabin comfort
- Medical transport allows up to 8 "walking wounded" patients and up to 4 critically injured patients
- LifePort stacking litters and medical equipment available for urgent care

CSI Aviation is Committed to Service and Safety – All Around the Globe

- The company has never had an accident or an incident or any FAA sanctions.
- All CSI employees and contractors follow applicable DOT/FAA, Federal, State and Local rules and regulations.
- CSI Operates under an FAA-approved Safety Management System (SMS) which exceeds Federal Aviation Regulation (FAR) requirements.
- Has been successfully audited by many third-party industry leaders in operations and maintenance assessments.
- Is an ARG/US Gold Rated air carrier.
- CSI maintains a current security clearance.
