## **CSI Aviation Now Fully Certified for Medical Flight Services in Texas**

### ***Texas Department of State Health Services gives medical certification for critical and specialty care air transport***

(Albuquerque, NM) CSI Aviation, Inc. is pleased to announce its certification by the Texas Department of State Health Services to fly critical and specialty care medical flight missions. CSI's medical flight capabilities now provide 24 hours a day, 7 days a week medical transport services for critically ill or injured patients using its fleet of King Air B200 and B300 aircraft.

“We operate frequently in Texas and are excited to now provide medical flight services throughout Texas,” said Marc Ramthun, Vice President – Sales. CSI has a long history of providing aviation services to Texas and most recently its subsidiary, Seeker Aircraft, deployed its fixed-wing light observation aircraft, the Seeker SB7L-360, to Texas to aid in post-Hurricane Harvey search, surveillance and recovery efforts.

The King Air B200 and B300s are high performance, twin-engine turboprop airplanes with a proven aviation safety record worldwide. CSI's aircraft are fully equipped with Spectrum Aeromed Systems that ensures the quality care, safety, and comfort of patients. All flights are crewed by accredited medical personnel specifically trained in patient care and aircraft safety.

### **About CSI Aviation**

Established in 1979, CSI Aviation, Inc. (CSI) has grown into a global aviation company providing diverse and complex solutions to commercial, group and private individuals, and government customers. CSI fills a unique niche in the aviation industry – solving complex aviation requirements for air charter services,

aviation logistics, and program management. CSI Aviation also holds FAR Part 135 Air Carrier operating authority and provides air charter, aircraft purchase, leasing and maintenance support. For more information go to: [www.csiaviation.com](http://www.csiaviation.com).
