Surveillance aircraft company expands into new market in Kingdom of Saudi Arabia

(Albuquerque, N.M., USA) Seeker Aircraft, Inc. has announced that the Seeker, a mission specific, light observation aircraft, designed and developed for surveillance missions, is now available for purchase from Arabian Development & Marketing Co. ("ADMC"), Riyadh, Saudi Arabia. This relationship marks the first expansion for Seeker Aircraft into the Middle East.

"Engaging with ADMC as an official Seeker Aircraft affiliate organization is a major step in expanding our sales & production efforts into the Middle East," said Ed Lundeen, President and CEO of Seeker Aircraft, Inc. "We are pleased to have formalized this relationship, knowing that ADMC's aviation and market-based expertise is a perfect fit for promoting our value proposition to regional government ministries, military special forces, law enforcement and commercial customers."

ADMC seeks to represent products in the market with competitive features that makes operations more efficient and cost effective while creating new high-tech jobs for Saudi Arabia.

Ayman Zeibak, General Manager of ADMC stated, "We are pleased to represent Seeker Aircraft in the Middle East in what we believe is a growing market for cost effective, manned ISR aircraft that will be built in the Kingdom. The Seeker is ideal for customers demanding mission success, safety, versatility, affordability and superior flight performance. We look forward to our relationship with Seeker Aircraft."

For more information about the Seeker in ADMC's sales territory, please contact ADMC at +966 50 545 1455. For all other inquiries, contact Seeker Aircraft at +1-505-341-7285.

More about Seeker Aircraft... The Seeker is a versatile, one-of-a-kind, light observation aircraft that was specifically designed and developed for intelligence, surveillance and reconnaissance (ISR) missions. This fixed-wing aircraft provides a cost-effective solution for ISR missions requiring operations under austere conditions, short take-offs and landings, easy maintenance in the field, and excellent cockpit visibility. Seekers are currently flying missions in Australia, Jordan, Azerbaijan, South Africa, Tanzania, and the USA. Seeker Aircraft, Inc. manufactures, distributes, and supports the Seeker worldwide. Seeker Aircraft, Inc. is headquartered in Albuquerque, New Mexico. For more information, go to www.seekeraircraft.com.
